SUMMARY

Frontend Developer with over 1 year of experience, proficient in React.js, JavaScript, and modern UI frameworks such as Material UI and Tailwind CSS. Experienced in creating responsive, user-friendly designs and integrating them with backend technologies like Node.js and MongoDB. Skilled in optimizing application performance, troubleshooting issues, and ensuring smooth functionality.

WORK EXPERIENCE

Frontend Developer (React.js)　　　　　　　　　　　　Jan 2024 - Aug 2024 (8 Months)
Sartia Global Pvt. Ltd. Noida

- Developed and maintained user-facing components of web applications using React.js.
- Collaborated closely with backend developers to integrate RESTful APIs.
- Wrote and maintained clean, efficient, and modular code following best practices.
- Debugged and resolved frontend issues, improving application performance by 20%.

Full-Stack Developer (MERN)　　　　　　　　　　　　Sep 2022 – Feb 2023 (6 Months)
Agami Technologies, Noida

- Designed and implemented server-side logic and database management for efficient data storage.
- Developed APIs to enable seamless communication between frontend and backend components.
- Debugged and fixed software issues, enhancing functionality and performance.

Web Developer Intern　　　　　　　　　　　　　　　Feb 2022 – July 2022 (6 months)
FNIT Technologies, Kanpur

- Designed, developed, and maintained websites using HTML, CSS, JavaScript, PHP, and WordPress.
- Gained hands-on experience with frameworks and tools such as React.
- Identified and resolved bugs, optimizing website performance by 15%

PROJECTS

Cloud Notebook Web App
[Live Demo](#) │ Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a note management system with user authentication and folder-based organization.
- Added features like print/save notes as PDF, enhancing usability for users.

Admin Dashboard
[Live Demo](#) │ Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a secure, responsive admin panel with JWT-protected routes and CRUD functionality.
- Managed application state using Redux for consistency across components.

E-Kart Shop (E-commerce App)
[Live Demo](#) │ Tech Stack: React.js, Firebase

- Integrated user authentication using Firebase and managed product data with Context API.
- Enabled cart functionality with add, remove, and update features, persisting data in local storage.
